

## SOLEX 303 EXTRA HEAVY DUTY GREASE

Solex 303 is a highly versatile polyurea grease with exceptional extreme pressure characteristics and excellent water resistance, recommended for use in high speed bearings even at extra heavy duty applications.

Solex 303 highlights following unique features:

- ❖ Higher extreme pressure that will allow the grease to stand for higher loads.
- ❖ It is completely water proof and would not emulsify on the spray test..
- ❖ It is very resistance to splatter should there be a sharp impact or shocking loading

### TECHNICAL SPECIFICATIONS

NLGI grade		2
Dropping point	ASTM D 566	270 <sup>o</sup> C
Viscosity @ 40 <sup>o</sup> C	ASTM D445	235 cst
Penetration unworked worked @ 60 strokes	ASTM D217	268 mm 275 mm
Timken test loads	ASTM D 2509	55 lbs

### AREAS OF APPLICATIONS

Solex 303 is commonly used in steel mills, off-road equipment, fleet and commercial applications. It is water resistance grease that would not wash out of truck components on wet roads.
