

SOLEX 330 UNIVERSAL MAINTENANCE OIL

Solex 330 is a multi-functions maintenance oil on solvent refined base commonly used in workshops and factories for general-purpose applications. Its lubrication not only reduces friction and wear, but keeps machine clean, inhibits corrosion, seals and cools.

Besides containing anti-rust, anti-oxidant, anti-wear and anti-foam additives, Solex 330 are also mixed with detergent and dispersant properties that expedite cleaning and sludge carrying process.

TECHNICAL SPECIFICATIONS

Appearance		Dark green
Specific gravity @ 15 ° C	ASTM D 1298	0.89 g/ml
Viscosity Index	ASTM D 2270	98
Viscosity @ 40 ° C	ASTM D445	101 cst
Flash point	ASTM D 92	245 ° C

AREAS OF APPLICATIONS

Solex 330 is ideally suited for electric motors, compressors, converters, hydraulic equipment, enclosed gears and chain drives etc.

Solex 330 helps to reduce wear and clean soiling areas of an engine including cylinder walls, cam shaft, tappets, rockers, bearings sumps, pistons, rings, valves, distributor drives and oil pump drives etc.

The data published are to our best knowledge the correct information. We reserve the right to alter the specifications any time and without prior notice.
