

## SOLEX 550 HYDRAULIC OIL

Solex 550 is a multi-grade hydraulic oil formulated with high quality, high viscosity index and paraffinic mineral base oils. It is designed to function over a wide range of temperatures and operating conditions in all types of hydraulic systems. Solex 550 allows parts to move freely and safely, yet maintains a seal.

Solex 550 provides protection against rusting, corrosion and wear. In additions, it has a good aging resistance that permits a continuous load and application lasting for a much longer period.

### TECHNICAL SPECIFICATIONS

Appearance		Light yellow
Specific gravity @ 15 ° C	ASTM D 1298	0.88 g/ml
Viscosity Index	ASTM D 2270	100
Viscosity @ 40 ° C	ASTM D445	69 cst
Flash point	ASTM D 92	225 ° C

### AREAS OF APPLICATIONS

Solex 550 is commonly used in compressor oxygen, nitrous oxide equipment, hydraulic pumps and ramps, hydraulic hoists, hydraulic shovels, machine tools, farm tractors, trenchers, bull dozers etc.
