

# SOLEX 778 OIL SLUDGE DISPERSANT

**Solex 778 is a heavy fuel oil sludge dispersant and combustion improver fortified with bactericidal agent. It has the following advantages:**

- ❖ Prevents formation of sludge in tanks, filters, preheaters, etc.
- ❖ Disperses existing sludge.
- ❖ Separates emulsified water and aid water separation at the separator.
- ❖ Improves atomization and combustion.
- ❖ Prevents low temperature corrosion.
- ❖ Neutralizes high sulphur contents as it has good cetane index.

## TECHNICAL SPECIFICATIONS

Appearance		Light blue liquid
Specific gravity @ 15 ° C	ASTM D 1298	0.90 g/ml
Flash point	ASTM D 92	75 ° C
pH value		8.0

## AREAS OF APPLICATIONS

Solex 778 is used for both steam boilers and steam/motor vessels burning heavy fuel oils to give sludge dispersion and improve combustion efficiency.

Pour Solex 778 manually into bunker tank prior to or during filling to ensure complete blending, or automatically, by means of metering pump into the fuel system.
